Company Profile 2024

DaikyoNishikawa Corporation

# Brand Concept Story

We create things that do not yet exist.

The result is from our hard work and effort.

We have the value,  
in our hands, not yet to be discovered by the market.

We sincerely take on what is required of us,  
and have continued to live up to our customers' expectations.  
It may not have been obvious to everyone,  
but still, we persist, paying meticulous attention to detail,  
aspiring to surpass the norm.

This approach reflects our value.

We, who Monozukuri,  
will take on our next challenge  
of shaping people's lives.

Through flexible thinking, steady progress,  
and growing together,  
through flexible thinking, steady progress,  
and growing together,  
possibilities emerge and the future will flourish.

We believe products and people from DaikyoNishikawa  
will change the world.

## Corporate Philosophy

We strive to be a company which places emphasis on people, society and the earth, in pursuit of the happiness and prosperity of our employees.  
We will aim to exceed expectations by taking on challenges to technological development and innovative *Monozukuri*.  
We will establish a company that gains the confidence of our community by thoroughly creating and following our general business ethics.

## Philosophy System Diagram

At DNC we relentlessly pursue our reason for being and our social mission.

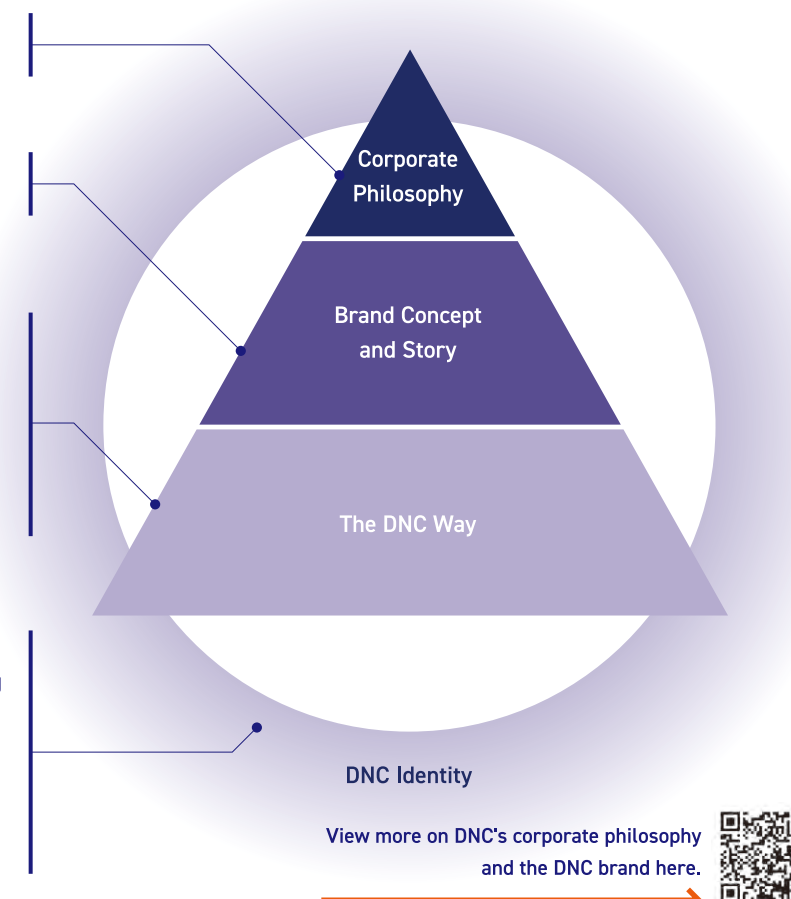

DNC Vision  
Making our tomorrow

The DNC Way outlines the actions that employees should take.

Value the Essence  
Hold on to Aspiration  
Do Work You Can Be Proud of  
Act on Your Own Initiative  
Join Forces as One-DNC

This represents the unchanging DNC Identity, which means the attitude and the way of thinking we value, as a link between what DNC has achieved until today and what DNC desires to be.

A Sense of Unity That Brings Flexibility  
Passion for *Monozukuri*  
Thoughts to Covey to the Next Generation

# DNC's Strengths

We propose unique solutions not available from our competitors in research and development, product development, and production technology.

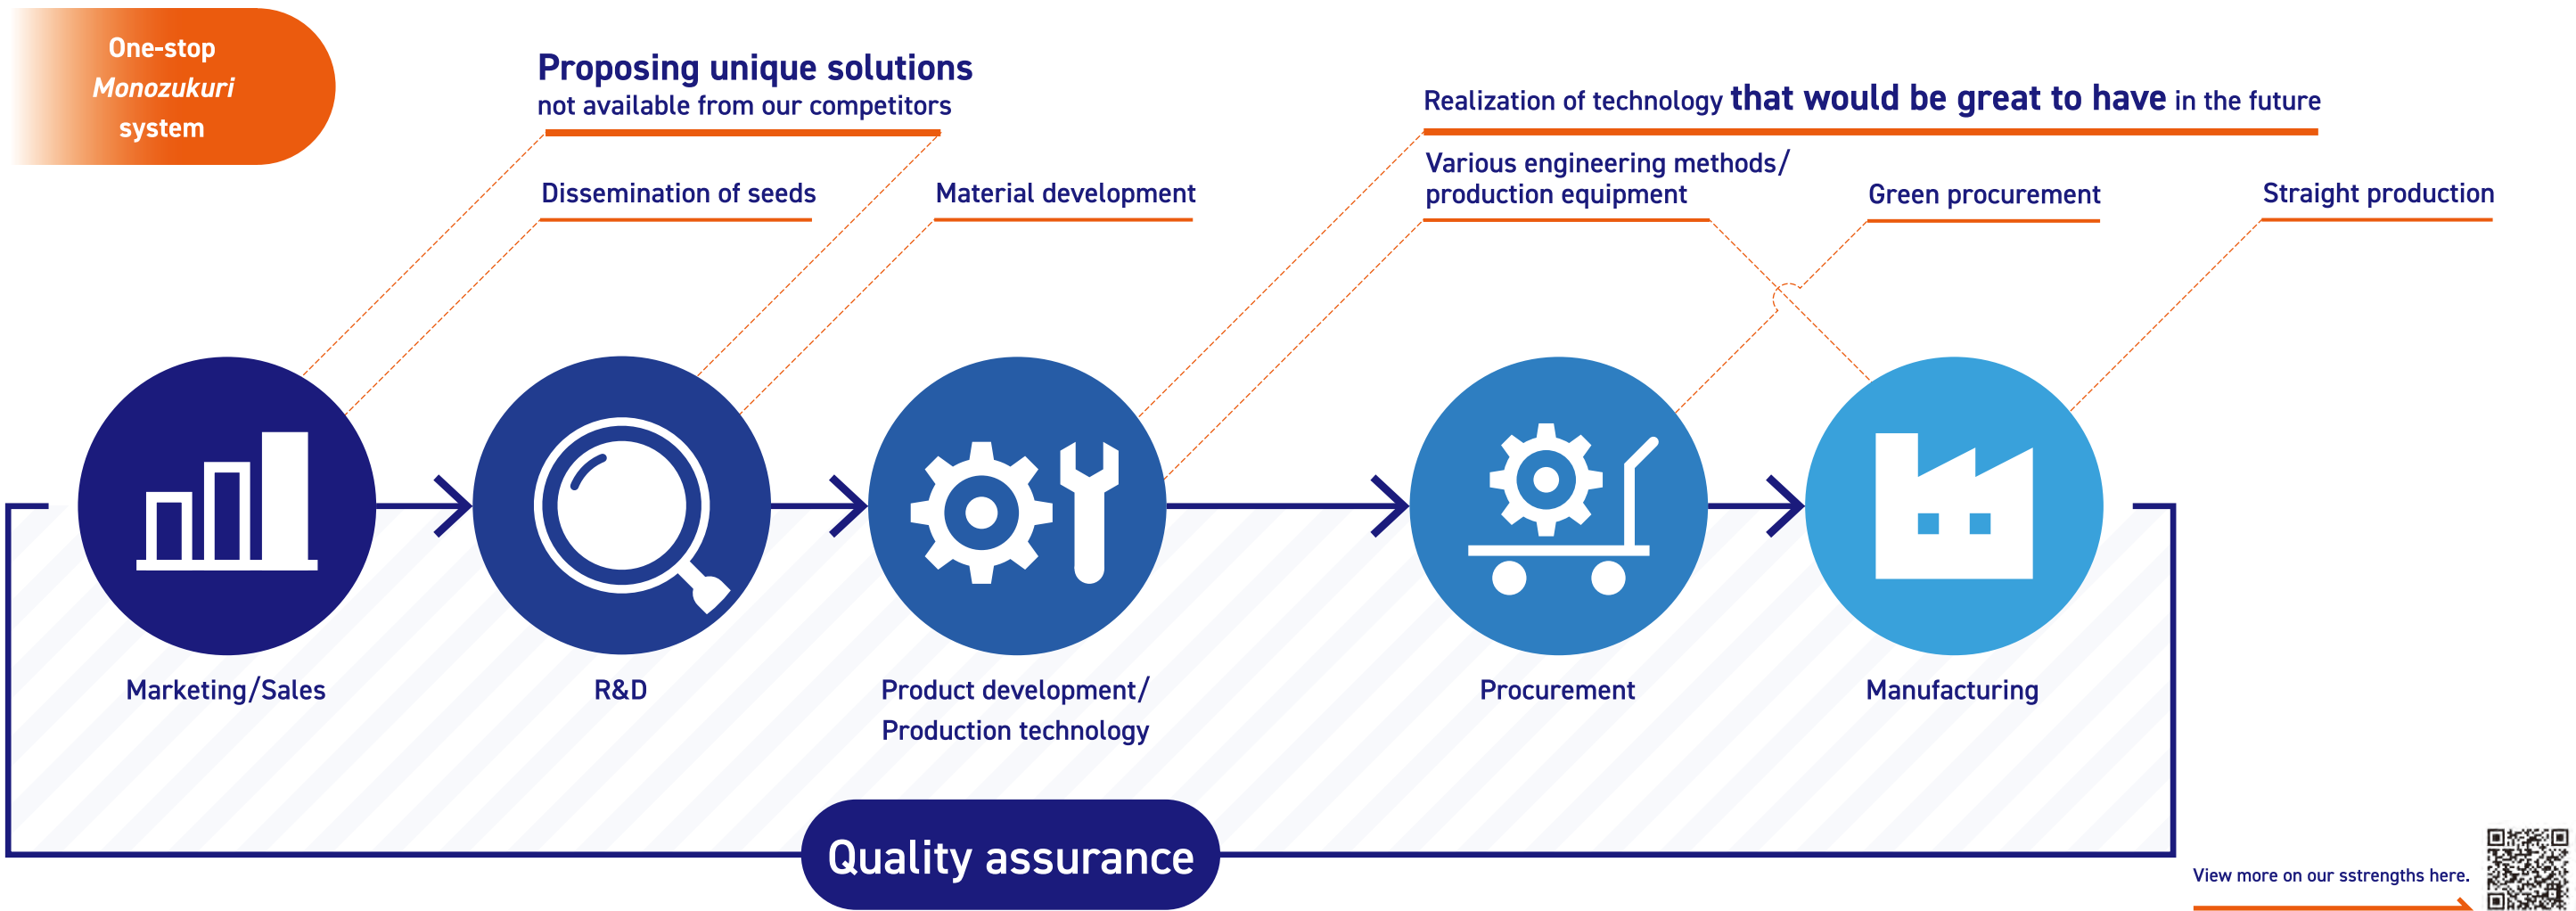

We handle all processes from marketing, sales, and research and development to manufacturing for *Monozukuri* to offer flexible responses, high quality, and competitive cost. Using our experience and high technical capabilities, we create attractive products that exceed customer expectations.

## Feature 1 *Monozukuri* with a one-stop system

Our services range from planning, including market trend research, and basic development, including material development, to commercialization.

## Feature 2 Co-creation

We provide value that meets customer needs by working together with our customers on development and sharing information even in the planning stage.

View more on our strengths here.

# Products

## Exploit the properties of plastics to make them highly functional and high value-added.

Our business pillars are the manufacture and sales of automotive plastic parts and housing-related parts.

Plastics are lightweight and have a high degree of adaptability in processing. We take advantage of these features, further enhance their functionality, and deliver higher value-added products, while giving due consideration to safety and the environment.

### Automotive plastic parts

We respond flexibly to market demand such as high-mix low-volume production, as well as to demand for quality concerning safety, which is the most important factor.

#### Interior parts
